 7. Certification in Infosys Springboard for Python Foundation.
 8. Drone Evolution-Unlocking the Skies workshop Conducted by KIT-Coimbatore.
 9. Certification in Matlab On ramp for Wireless Communication.
-

PROJECTS:

1. Remote Physiotherapy Feedback Monitoring System Using IoT and AI.
 - The system uses IoT sensors or camera-based AI to track a patient's movements at home, providing immediate feedback if an exercise is being done incorrectly. This ensures patient safety and exercise efficacy without needing a therapist physically present.
 - By collecting objective data (like joint angles and repetition counts), the AI generates detailed progress reports for both the patient and the doctor. This allows for personalized treatment adjustments based on actual recovery data rather than just the patient's memory of their workout..
-

HANDS ON EXPERIENCE KNOWLEDGE:

1. Hardware debugging.
 2. PCB Assembling.
 3. Electrical wiring.
 4. Embedded System.
 5. Soldering skill.
-

VOLUNTEERING:

Coordinated an event during the Technical Symposium, Facilitating seamless implementation of the participants.

PERSONAL DETAILS :

Date of Birth	:	21/05/2005.
